## Meet the latest addition to the Fjordfiesta family - Scandi Lux. A new cushion to dress up our famous Scandia Collection.

This great new addition is designed by the acknowledged Norwegian designers Anderssen & Voll, and was launched during Designers Saturday in Oslo, September 2021.

The cushions is available in Bardal (a comfortable wool fabric), Clay (an elegant yet casual linen fabric), and Shade (soft leather).

Our Scandia Collection consists of 10 different chairs, and accessories such as the footstool Scandia Ottoman, a sheepskin overlay, a small round cushion in leather, and a headrest, and now finally - something to make the chairs even more comfortable: Scandi Lux.

The cushions designed by Anderssen & Voll, is a result of a long-lasting relationship between the designers and Fjordfiesta over the years.

Scandi Lux comes in two different sizes, to dress the Scandia Senior easy chair and the Scandia Nett lounge chair.

The Scandi Lux cushion has already been well received by our customers.

The cushion adds a new comfort to the chair while preserving Brattrud's iconic design.
