

Miss Holly

CHAIR IN SOLID ASH

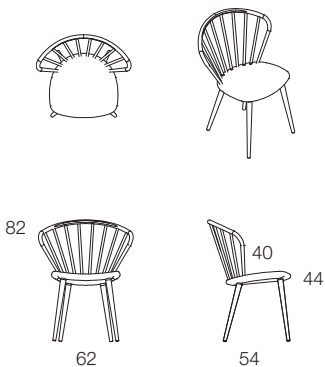

DESIGN: JONAS LINDVALL

9023

SCALE 1:50

DETAILS

1. Miss Holly offers many details that testify to the designer's high professional skill. The top-piece is made of a piece of solid wood which was compressed to make it pliable.
2. Soft tactile forms. Generous and gracious at the same time.
3. Thanks to its clear profile, Miss Holly works equally well as a standalone item or in a group. Its seating height suits most dining tables.

FACTS MISS HOLLY

CONCEPT

Miss Holly was produced with respect for the past and a feel for what is lacking today. Jonas has gained inspiration from Windsor chairs from all over the world and has created his very own version with a two-dimensional feel. Gracious and generous at the same time.

A chair that is equally attractive and functional, and whose many details testify to the designer's professional skill and love for wood as a material. Miss Holly is equally attractive alone or in a group. Its seating height is suitable for most dining tables.
