Museum

Prior to the re-opening of the completely newly renovated Nationalmuseum in Stockholm, TAF Studio was commissioned to design parts of the interior. Among other products, they designed the brand-new console shelf Museum NM&045 for String Furniture. The beautifully slender – but oh how robust - shelf now holds sculptures, busts, and other smaller objects from the museum's collections. And it does this equally well at home. As the Museum family is expanding with the height-adjustable Museum Sidetable, the possibilities become even greater: pedestal, small extra table by the sofa, bedside table, computer table or what your creativity might come up with. For you to always have your favourite belongings within proximity – or placed safely and steady on a secure distance.
