

Valovoima

Valovoima is a stylish LED bright light device with a dimmer. It is designed in a way that the light is easy to direct and the compact device is easy to place for example on a desk. The dimmer adds adjustability: the amount of the light is easy to adjust. The lamp is designed by one of the top Finnish designers Harri Koskinen.

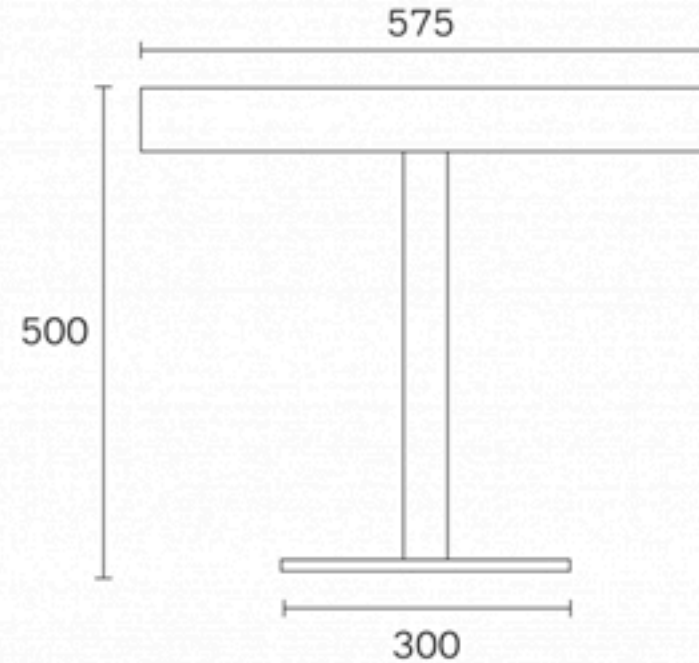

HARRI KOSKINEN

Designer, born 1970

Harri Koskinen studied design in Lahti University of Applied Sciences and University of Art and Design in Helsinki. In 1998 he founded studio called Friends of Industry, which specialises in producing product and concept design as well as installation architecture. He has designed for many different labels and companies, across many types of article from furniture to cookware, as well as commercial packaging. Harri Koskinen has been awarded many prestigious international and Finnish design awards since the start of his career.

Technical information
