## VITAMIN CONTAINER BOWL FURNITURE / LIGHTING / ACCESSORIES

**Ole Jensen on the design** "This bowl seeks to give fruit and vegetables the respect and environment they deserve, as well as adding to their natural beauty. The bowl has three legs that also work as storage spaces? maybe one for fruit, one for vegetables and one for fresh spices. Divided but still united. It creates a certain order and cycle without being pedantic. The random aesthetics also plays a central role. With a bit of good will, the bowl helps us take better care of our fruit and vegetables, and ourselves."

PROCESS	Casted in plaster tools, hand polished and fired twice.
